Clay Coleman, of Harrodsburg, leased for the present season the great saddle horse sire, Jack Twigg, and the noted fellow will make the season at Mr. Coleman's stable in the Harrodsburg fair grounds. Jack Twigg sired the great gelding, Maydan, that Ed Doty, of Richmond, showed all over the country and finally sold for \$5,000. Jack Twigg has a long list of star performers to his credit, and really is one of the great saddle horse sires of the day.

Do You Want Your Kidneys Examinated On?

Kidney troubles are getting more common every day. Government health bureau figures say deaths from kidney disease 72 per cent. more than 20 years ago.  
Anybody who suffers constant backache, who feels blue, nervous irritable, who has dizzy spells, headache and urinary disorders should suspect kidney weakness. Overworked kidneys must have a rest. Take a good kidney remedy to build the kidneys up again.  
But be sure to get Doan's Kidney Pills—the oldest, the most widely used, the best recommended of all kidney pills, now in use all over the civilized world. Don't experiment with your kidneys. Thousands have already tested Doan's. You have their experience to go by. Plenty of cases right here in Stanford. Here's one:  
Mrs. S. E. Owsley, R. F. D. No. 4, says: "I had severe pains in my back and my limbs ached and were badly swollen. My kidneys throbbed and ached and were sore. My head also ached and I had dizzy spells and my hips were so sore and painful they caused me a great deal of annoyance. I used all sorts of remedies with little benefit. Three boxes of Doan's Kidney Pills put me in good shape and the aches and pains left me."  
Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same burn Co., Mfg. Co., Buffalo, N. Y.

He was sent to Fort Oglethorpe for further physical examination and from there he goes to Fort Meier, Va. This corps as soon as mobilized sails for France. Young Tanner left McKinney two years ago to accept a position with the Jerry Coal Iron and railroad company. He was promoted from time to time and now holds a lucrative job and one he appreciated, yet when the chief clerk asked him if he could not wait for the draft, he said: "I must enlist as a true American. I can not shirk the duty I owe my country. With the promise of his old position on his return from France, Tanner leaves Birmingham. While this war is sad in all respects, his parents feel proud of the disposition and spirit which he has shown in this matter."

## GRAND OLD SOLDIER GOES TO HIS REWARD

Dr. Early is dead. Those are sad words to every human being who knew the splendid old soldier of the cross, for to know him was to like him. The end came at his home on East Main street at 2:40 Wednesday afternoon after a brief illness. A month ago Dr. Early became troubled with sciatic rheumatism, but except for the pain it gave him, little attention was paid it. Ten days ago the pains became severer and when he returned from Louisville the middle of last week a physician was summoned with hope of relief. All that could be done for the grand old man was without avail, however, and last Tuesday morning it was announced that uraemic poison had set in and that his condition was alarming. He grew rapidly worse and by noon had sunk into a stupor from which he never rallied. That evening his case was announced hopeless and he gradually sank until the summons came.  
Dr. Early had been pastor of the First Baptist Church of this city for nearly five years, coming to Stanford from Monticello. He labored unceasingly in his work here and it is probable that his strenuous efforts to build up his church and win souls for Christ shortened his days. Late last fall he held a meeting here and for fifteen days preached twice daily. It was too much for his advanced years and it is believed that he had never been as strong as before. A few Sundays ago Dr. Early was taken ill during his sermon and had to dismiss his congregation. He attributed that to a bad stomach, and Sunday before last he preached an unusually strong sermon from his pulpit. The next morning he went on an early train to Louisville to attend a meeting of the mission board, of which he was a member. The trip was a hard one and he never recovered from it.  
Born in the South and a Southern sympathizer, Dr. Early enlisted with the Confederates in the Civil War and fought from 1861 to 1865. He was as gallant a soldier as ever followed Lee, and although in his teens when he entered, his splendid services for the South were rewarded again and again. After the war he studied for the ministry and becoming interested in mission work, he gave much of his time and talent to it. For four years he was secretary of missions for the State of Texas and six years he held a similar office in Arkansas. For years he had been a member of the State Mission Board and there was no more earnest worker on it. He was twice married, his widow being Miss Elizabeth Faulkner, of Texas. He is also survived by several children including Miss Mary Early, of this city, who was her father's idol, if he had one. His devotion to wife and daughter was as beautiful as it was apparent.  
As a preacher, Dr. Early was considered among the biggest in the South. A man of striking personality, a heart that was almost as big as his body, and an intense love for mankind, he was a success in bringing men and women to better lives. Rev. O. E. Bryan, who preached his funeral, told the writer that between the age of 40 and 60 his work was wonderful and many hundreds had been made to turn away from the ways of the world by his superb efforts in the pulpit and among the people.  
Dr. Early loved men and he did his utmost to save them. He never gave up any sinner, it mattered not how low he sank. As long as the soul was there he tried to save it. He probably was closer to those who have not made professions than any preacher who has ever lived here. Men went to hear him who would not go to hear other preachers. Dr. Early had struck at the psychological moment with them and had made them his friends. They will miss the grand old gentleman and as the result of his taking away they all carry bleeding hearts.

Dr. Early was a grand christian character. He did right as he believed right and there was no compromise with sin or treason anywhere. The evil deed of the rich man was as quickly disapproved by him as was a good turn by a poor one commended. No man doubted his standing on any subject and his life was as near an open book as that of any person in the writer's knowledge. Pity it is there are not more like him.  
An evidence of the respect for the deceased was shown Thursday afternoon when all business of every kind was stopped from 2 to 4 o'clock during the funeral and burial. Such a thing is seldom done here, but seldom in many years has Stanford been called upon to give up such a man as Dr. Early was.  
The funeral was preached at the church by Dr. O. E. Bryan, a warm friend of the deceased, whose affection for the doctor was so great that he could not suppress his grief. Tears rolled down his cheeks as he spoke affectionately of his good friend and fellow worker, and extolled the virtues of the good man. The service was a very simple one, but it was beautiful and impressive, notwithstanding. The church was crowded and there was scarcely a dry eye in the great crowd. The doctor's favorite songs were beautifully sung by a quartette composed of Dr. and Mrs. W. D. Welburn, Miss Minnie Straub and Mr. T. D. Roney. Mrs. Welburn, Brazelton and Bruce, all took part in the services. The Masons, of which order Dr. Early had been a member for many years, had charge of the burial.  
There were a number of beautiful floral tributes, including one from the Masons and another from the church. Dr. Early was very much interested in the Liberty Service League, of which he was a charter member, and his League pin and Red Cross button were placed in the lapel of his burial robe.  
Every heart in the community

## TO PEOPLE OF LINCOLN COUNTY

Permit us to remind you of "Good Roads Week" for Lincoln county. The week of March 18 to 23 has been mentioned as "Good Roads Week." March 20th, is the day we are asking the people to work the roads and furnish three loads of rock or gravel. However, if it is not convenient to work that day it can be done later, but the important thing is to do the work at the earliest possible time. The only objection we have met with on this proposition is the unusually busy time with the farmers. We will grant this, but everybody is busy who is not a slacker. The people of Lincoln county must awaken to the fact that road building is of first importance because Lincoln county is an agricultural county and it requires roads to develop agricultural sections. We are asking for this work to be done now, in order to give immediate relief to the road situation. Then later on when the busy season is over with people generally, we are going to ask for another road day. We are asking every one to join in this movement and make a concentrated effort over the entire county. We have met with much encouragement from the people. Have not approached a single person on the subject who has not readily agreed to do what has been asked and in most cases promised double. Let us have it said of Lincoln county that we have improved our roads without having to levy an additional road tax.

## SERVICE FLAG UNVEILING.

The "Hooper Class" of the Christian Sunday School has presented the church with a beautiful Service Flag to be hung in the Auditorium in honor of the men from this church "with the colors." An invitation is being extended to the families of the men and seats will be reserved for them. The auditorium will be tastefully decorated with flags and potted plants. The flag will contain thirteen stars, representing the following names, which will occupy a place on the "Honor Roll" by the side of the flag: Sherman Anderson, Wm. Bell Bryan, Hubert Carpenter, Clarence Cooper, James Cooper, Wesley Embury, Hugh Reid Foster, John A. Menefee, Jr., Ernest Peoples, Bryan Perkins, John Owsley, Reil, Clairborne C. Walker, J. T. Wilkinson. The following is the program: Hymn, "Word of the Lord and Gideon;" Scripture Lesson, Ephesians, sixth chapter; Prayer, by the Minister; Hymn, "When I Survey the Wondrous Cross;" Lord's Supper; Hymn, "Onward Christian Soldier;" Presentation of Service Flag, J. S. Hooper; Duet, "Keep the Home Fires Burning;" Misses Bailey and Powell. Response for the Church, Minister Howard J. Brazelton. "America," Congregation. Benediction.

"I considered him one of Kentucky's big men, as well as one of her very best," added the governor.

## Don't Let Catarrh Drag You into Consumption

### Avoid Its Dangerous Stage.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hacking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by

sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. You can obtain special medical advice without charge by writing to Medical Director, 27 Swift Laboratory, Atlanta, Ga.

### CRAB ORCHARD

Mrs. Louis Bell has been very sick for some days, but is able to sit up a little.

Mrs. Daisy Hunt is assisting in the Cherry Store while Mr. Cherry is away.

Mr. Otto Watson, of Brodhead, moved into the Manual property Wednesday.

Mrs. David Street is critically ill at her home near town with little improvement.

Mr. and Mrs. J. Thomas Cherry went to Cincinnati Monday for spring goods for the firm.

Mr. Tom Hays Bronaugh has accepted a position with Mrs. Willis at the Springs for this season.

Mr. Robert Thompson has had his large front yard plowed and will plant it in something useful.

Mr. John Stephenson, Jr., came home from Dayton, Ohio, Sunday and will remain during the season.

Mr. Wood Peters has been very low with pneumonia, but is improving slowly, we are so glad to state.

Mrs. Russell Dillon remains about the same, not much improvement.

Mr. Proctor was some better Wednesday.

Dr. Pennington, a dentist from London will practice his profession here. At present he is in the Phillips & Jones office.

Mrs. Mesdames Pettus and Collier went to Louisville Sunday to lay in their spring millinery. Miss Bird Perkins accompanied them.

Mrs. Jamie Carpenter returned a few days since from a most pleasant visit with her sister, Mrs. Bragg Thompson in Cincinnati.

We forgot to state in our last letter that Miss Ethel Powell, of Stanford, came up to attend the play given at the college here a few days since.

There was a dance at the home of Mrs. Daisy Hunt Saturday night and one at the Parrish Hotel Tuesday night, and the fun-loving element certainly enjoyed both occasions.

Mr. Ed Gooch has bought the old Carson home and proposes to tear down the old structure and replace it with something better as soon as Uncle Sam will allow anyone to build.

Montez Fish together with six of his Louisville friends took a pleasure trip to Atlanta, Ga., this week during a vacation from business. They were greatly pleased with the Southlands and its people.

Two more soldiers for life's battles came to town this week. One will stay with Mr. and Mrs. Walter McGowan, the other with Mr. and Mrs. Thomas Shaw. No names assigned either as yet, but their appearance has caused much joy in two homes.

Our postmaster has returned from a visit to relatives in Indiana. We certainly have a right to feel proud of our postmaster and his assistants who do all in their power to render impartial treatment to all classes and are patient and courteous, with every one.

Cassie Norris, colored, one of the best known cooks in all this region, died this week and was buried in the colored folks cemetery Saturday. She belonged to ante-bellum days and was much respected by many people here. She has prepared many fine meals for the visitors at the Springs and was in every way worthy of the good will and respect she received at the hands of her white friends who grieved at her death.

Mrs. L. F. Jones, of this city, received the sad news of the death of her cousin, Mrs. Harry Skelley at Winchester. Mrs. Skelley will be remembered by many of our young people as the beautiful and accomplished Miss Myrtle Porter, who visited Dr. and Mrs. Jones often. Two of her brothers are in the U. S. service and one of these, Will Porter, arrived before her death, but the other who is at Hattiesburg, Miss., could not be heard from.

Rev. Wright preached two splendid sermons at the Christian church Sunday and all who heard them were pleased both with his delivery and enthusiasm. He met the Sunday school teachers in the afternoon and gave them much useful advice as to how to enlarge the school. His work here starts in a most promising manner. But our church will never forget the earnest work of Rev. C. E. Wyatt and often refers to his labor of love and his enthusiasm for the church's welfare.

THE RED CROSS NURSES OF EUROPE ARE GIVING TOASTED CIGARETTES TO THE BOYS

To anyone who doesn't know of the wonderful advances that have been made in the preparation of smoking tobaccos in the last few years it may sound strange to speak of toasted cigarettes.

Strictly speaking, we should say cigarettes made of toasted tobacco; the smokers of this country will recognize it more readily by its trade name, "LUCKY STRIKE"—the toasted cigarette.

The American Tobacco Company are producing millions of these toasted cigarettes and these are being bought in enormous quantities through the various tobacco funds conducted by the newspapers of the country and forwarded through the Red Cross Society to the boys in France.

This new process of treating tobacco not only improves the flavor of the tobacco but it seals in this flavor and makes the cigarettes keep better.

The Red Cross nurse is always glad to have a cigarette for the wounded soldier, as, in most instances, that is the first thing asked for.

The Urgent Deficiency Appropriation Bill, carrying \$1,800,000,000, with its legislative riders authorizing sale of all enemy property in the United States and purchase by the Government of the German-owned wharves at Hooker, N. J., was passed by the Senate. The bill had already passed the House and now goes to conference.

Maj. Armand Romain, Republican National Committeeman for Louisiana, is dead.

## FOOD WILL WIN THE WAR

Following a representation made by Senator Basil Richardson as to the meningitis situation at Glasgow, Gov. Stanley has ordered the State Board of Health to send specialists to that city and give what aid is possible in relieving the situation. Gov. Stanley has also called upon Federal authorities for aid in preventing a spread of the disease.

All books dealing with the manufacture or use of high explosives have been removed from the open shelf and reference rooms of the Louisville Free Public Library. This action was taken following an order from the War Department. It is pointed out that such books might prove a menace in the hands of enemy aliens.

Maj. Gen. March, Chief of Staff, denied reports that France had appealed to the United States to send more troops. He declared the movement of men was going forward satisfactorily. Secretary Baker is much pleased with his reception in France.

### NOW—ALL TOGETHER

Tho we have to skimp ad save,  
We are going to see it thru,  
Tho we have to toil and slave,  
We are going to see it thru.  
Tho we have to starve and freeze,  
We will not go on our knees  
To an insane brute's decrees—  
We are going to see it thru.

Tho the last man takes a gun,  
We are going to see it thru.  
We are back of Washington,  
We are going to see it thru.  
Tho beset by woes and fears,  
And a tide of blood and tears—  
If it takes a hundred years,  
We are going to see it thru.

### ONE OF THOSE "LESS" DAYS

Little Jack Horner  
Sat in a corner  
Eating his Hooverized pie;  
He took a big bite  
Of crust far from white,  
The flour being nearly all rye.

Old Mother Hubbard,  
She went to the cupboard  
To get her poor dog a bone;  
But when she got there  
The cupboard was bare,  
"My goodness," she cried,  
"it's a meatless day!"

### A HAPPY LIFE

Philadelphia Bulletin:—Mrs. Muggers—I see a prominent society belle is dead; if there ever was a perfectly blissful existence on earth, she enjoyed it while she lived.

Mr. Muggers—Because she was a society belle?

Mrs. Muggers—No, because she was engaged twenty-four times and never married.

A jury sentenced Mrs. Belle B. Hussey, who has an income of \$500 a month, to spend a month in jail for refusing to provide for her aged father, John B. Shockency, formerly well known in Kentucky trotting horse circles. She was indicted under the Indigent Parent Act.

## Which Is More Urgent?

### FIRE INSURANCE—

Important? You fully realize it. You would not allow your house to remain uninsured over night.

Your house may never burn. Comparatively few buildings ever do.

If your house does burn, your property is destroyed, but you can still provide for your loved ones. Your income remains unaffected, your earning capacity unimpaired.

If your house is not insured at all, or for an insufficient amount,

**YOU**  
Carry the Risk

Your friend has had his home insured these thirty years, and has had no fire. He has been fortunate in that, though he has nothing now to show for the money paid out.

Headquarters for All Kinds of Insurance

### LIFE INSURANCE—

Important? Oh yes, you intend to insure after awhile when "a little better able to do so."

You will surely die. All men do. You are more likely to die within a week or a year, than your house is to burn.

Death destroys at once and irrevocably, in whole or in part, the income that provided for the daily wants of those you love, the income that was counted on to feed and clothe and educate your children.

If your life is not insured at all, or for an insufficient amount,

**Your Wife and Babies**  
Carry the Risk

Your friend has had his life insured these 30 years, and is now an old man. He is fortunate in having lived, and he has something now to show for the money paid out. His cash value affords a comfortable support for his own declining years.

### THE DIXIE-BOONE HIGHWAY

Walter F. Brooks, U. S. Senior Highway Engineer, arrived at Livingston, Monday for the purpose of making reconnaissance of the different proposed routes of Dixie-Boone Highway, between that point and the mouth of Parker's Creek, up the river to connect with Laurel county, constituting the "gap" now existing in that highway, between the north and south.

At a meeting of Rockcastle Fiscal Court on March 8th, the original "river route," as ordered by a former court, was endorsed with an added proviso, that in case said route was not acceptable to the U. S. Government, then said Federal authorities were at liberty to designate a route suitable and acceptable to them. The Government proposes to give \$50,000 and the Dixie-Boone Highway people the same amount to be used in completing this gap. The amount has already been subscribed. It is intended to rush the construction and if possible get ready for travel this year.

The Dixie Highway traverses forty miles in its passage through Rockcastle, thirty-three miles of which have been graded and a portion has been macadamized.

W. T. Ogden has purchased a farm of 233 acres, on the Leetown pike, in Woodford county, from J. W. Williams, as an investment. The price was not made public, but it is said land in that section has been selling at about \$190 per acre.

### CANADIAN SEED IS SHORT

Canadian trade journals report that owing to short crops and the utter failure to secure supplies from European countries, the farmers in Canada will have to look to the United States to help them out with a supply of seed. In the years past Canada has bought much of her vegetable and garden seed in France, Holland and Belgium. The lack of transportation and the high rates for all freight shipped has affected both the prices and the supplies.

## Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

### How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

Following quickly the resignation of Ensign Krylenko, the Bolshevik Commander-in-Chief, the resignation of Leon Trotsky, the Commissioner of Foreign Affairs, was announced at a Maximalist meeting in Petrograd. While his colleagues in Bolshevik authority are dropping away from him, Nikolai Lenin, the Bolshevik Premier, is bending every effort to insure ratification by the Russian Congress of the peace treaty signed with the Central Powers. Meanwhile there are reports that a movement by the Social Revolutionists, launched at a Moscow conference, has as its aim the ousting of the Bolshevik Government and the repudiation of the peace treaty.

Seventeen ships of a total of 120,000 tons were launched during February under America's shipbuilding program, and it is estimated by Shipping Board officials that the March deliveries would reach a total of twenty-three ships. Fears of the Shipping Board that the lumber supply in the Northwest is inadequate were declared unfounded.

### MIDDLEBURG

Roseola or "German Smallpox," as some term it, is worrying a number of children hereabout.

The war must be lagging. The writer was at Yosemite Saturday and did not hear the subject mentioned. When war or politics are not mentioned in that town you can set it down that there is nothing doing in either.

It is understood that Rev. J. W. Beagle will be here in May and hold a meeting at the Baptist church.

We have heard a number of Democrats express themselves of late, and from what we have gathered Hon. Jas. D. Black is decidedly the choice of the party here for Governor. H. V. McChesney is quite a favorite with our people and there would likely be a slight shifting to him should he decide to run, though Black is in the lead now. McChesney made a speech here in the Stanley-McChesney campaign, three years ago and simply "mopped up" everything in sight, and will have a following should he make the race again.

We hear much complaint of corn that was cribbed last fall, heating in the crib. Several of the farmers have been compelled to shuck out their entire crop in order to save it.

March, aside from the wind, is giving us some fine weather and we have begun to think that springtime is near at hand. The robin is here and the cooing of a dove heard a few days since are indications of better things. We are not a prophet neither are we a son of one, but we are going to predict an early spring. Watch and see how nearly our predictions are verified.

D. G. Portman and son, Chester, passed through town Sunday morning en route to Lexington. Judge J. D. Taylor, County Attorney Eli Wesley and Sheriff Silas Ashley were at Yosemite Saturday. Their appearance there together created some little excitement and there were those who would have been glad to have known their business.

Granville and Greeley Lutes attended court at Stanford Monday.

### THE SPRING DRIVE

Our boys are going "Over the top" and into "No man's land" this spring. No one has any doubt of their ability to get there. There will also be a spring drive on this side of the ocean, because March is the year's "blue Monday." It is the most fatal month of the year. March and April is a time when resistance usually is at lowest ebb. It is a trying season for the "run-down" man. But medical science steps in, and says, "It need not be." We should cultivate a love of health, a sense of responsibility for the care of our bodies. Do not allow the machinery of the body to clog. Put the stomach and liver in proper condition. Take Dr. Pierce's Golden Medical Discovery, to be had at most drug stores in tablet or liquid form, tablets sixty-cents a vial, composed of native herbs. This puts the stomach and liver in proper condition. You may be plodding along, no spring, no elasticity, no vim, but as soon as you have put the body into its normal physical condition—oiled the machinery, as it were—you will find new vim, vigor and vitality within you. A little "pep," and we laugh and live. Try it now. Send Dr. Pierce, Buffalo, N. Y., 10c. for trial package. A little energy will save the day. The prime necessity of life is health. With spirit and energy you have the power to force yourself into action. The Golden Medical Discovery is the spring tonic which you need.

One million dollars for Foreign Missions by April 30, will be the slogan of a campaign to be carried out by the members of the Southern Baptist church during the month of April, plans for which are already under way. The object of the campaign is to secure this fund in addition to the regular gifts of the church to this work, as the war has greatly increased the cost of the foreign missionary work, and the Baptist church, along with many other denominations is facing a deficit in this cause unless some special effort is made. The campaign was begun by the Baptists of the States of Virginia and Texas one-tenth of the sum being pledged from each of these two States, and the denominational leaders are making an effort to secure similar pledges from Kentucky, Georgia, and other States.

Victor L. Berger, former Congressman from Wisconsin; Adolph Germer, national secretary of the Socialist party; Irwin St. John Tucker, a Chicago Socialist; J. Louis Engdahl and William F. Kruse, the two latter editors, were indicted by the Federal grand jury in Chicago charged with obstructing recruiting, encouraging disloyalty and interfering with the prosecution of the war.

Organized labor of New York City and the metropolitan district united in condemning the conviction and sentence to death of Thomas J. Mooney as "a monstrous injustice" and in demanding for the San Francisco labor leader a new trial for the part he is alleged to have taken in the "preparedness day" bomb explosions July 22, 1916, in which ten persons were killed.

McIntyre & Richardson, of Danville, have sold their interest in the Harrodsburg Herald to Mr. D. M. Hutton, who has been owner of a half interest in the publication for a number of years. McIntyre & Richardson still own the Harrodsburg Democrat.

H. C. Wood, of Harrodsburg, wrote a story entitled "Night Riders," and the Metro Film Company has paid him a big price for the privilege of making it into moving pictures.

## Read! Think! Act!

Just REASON with yourself and you are bound to come to the conclusion that REAL ESTATE is not only the safest investment in the world but pays bigger dividends than anything else. Lots of acres pay several times 100 per cent., on the investment and you cannot put your money anywhere else that will begin to do this. If the best land in Indiana, Illinois and other states is bringing from \$400 to \$500 per acre why won't ours be bringing the same pretty soon? For we have as good land as you can find on the globe and our climatic conditions are better than most states. Land is bound to go higher and can never be any cheaper. If you were to cut the present prices one half that you are getting for your products at present prices land would then be entirely too cheap compared with dividends derived from land as to dividends derived from investments from any other source. They tell you that when the WAR is over prices will drop. Just apply the rule of reason. If the war should stop tomorrow, hasn't the world got to be fed? And hasn't this country got to do it? Doesn't everything rest on the American farmer and American soil? Would it be possible for the present prices to drop under two or three years? If you are a thinking man, your answer is bound to be NO. Now is the time of your life to make money. This is the best time in the world to invest in American dirt. Read these over.

# One More Chance

## To Get This Big Aluminum Cereal Cooker for One Dollar

### To Any Housewife Who Missed It

Once more we make this offer, but for one week only.

A million homes have been supplied with the ideal Quaker Cookers. But countless new homes in the past year have adopted Quaker Oats.

A wave of economy, plus wheatless meals, have multiplied oat-food users. And millions of them — to get this matchless flavor — are using Quaker Oats.

We want those new users to have Cookers too. So we repeat this remarkable offer.

The cost of aluminum has doubled. Cooker prices have enormously advanced. But we make new users the same offer that we made to old. We will send this big aluminum Cooker for only \$1, all charges prepaid, under offer made below.

This offer is for one week only. It applies only to those who have no Quaker Cooker now. If you are one of them we urge you to accept it.

### For Quaker Oats Users

Extra Large and Heavy

Cereal Capacity 2 1/4 Qts.

Made to Last a Lifetime

### A Million Homes Supplied

We have supplied over a million users of Quaker Oats with an ideal way to cook them. The purpose is to have Quaker Oats cooked rightly.

Quaker Oats—flaked from queen grains only—has a wealth of flavor. Right cooking keeps that flavor intact. It makes the oat dish doubly delightful—makes it easy to digest.

So we had this Cooker made to our order—an ideal double cooker. It is extra large, so little or much can be cooked in it. It is extra heavy, made to last a lifetime.

That is the Cooker—made of pure aluminum—which we offer this week for one dollar, under the conditions below. If you are serving Quaker Oats, or if you will, we want you to have this Cooker.

## \$1 Brings It This Week

Buy from your grocer five packages of Quaker Oats, or of Quaker Best Corn Meal, or five packages of the two combined. Send us your grocer's sales slip for the purchase and send \$1 with it. We will then send this cooker to you, all charges prepaid. This offer is good for one week only, and it applies to this vicinity alone. Address,

The Quaker Oats Company  
1708 Railway Exchange, Chicago

## The Two Chief War-Time Foods

### Quaker Oats At 1/3 the Cost of Meat

Quaker Oats, measured by food units, is twice as nutritious as round steak. It supplies nutrition at a cost of five cents per 1000 calories.

Meats, on the average, cost eight times as much for the same food value. Eggs cost ten times as much. You can serve six dishes of Quaker Oats for the cost of a single egg.

The oat stands supreme among grain foods, in nutrition and in flavor. It far exceeds wheat in food units.

It is the energy food and the food for growth. It supplies every needed element in just the right proportion. It should be your basic food.

Quaker Oats is flaked from queen grains only—just the big, rich, flaky oats. We get but ten pounds from a bushel. So in this brand you get a wondrous flavor without any extra price. All oat foods are doubly delightful if made with Quaker Oats.

### Quaker Best Corn Meal The Best 60% of the Corn

Next to oats in economy comes Corn Meal. We make an exquisite corn meal, and put it up in sealed round packages.

In Quaker Corn Meal we use the cream of the corn—about 60 per cent of the kernel.

The fibrous outer coat is removed, because it makes corn meal coarse. The oily germ is removed, because the oil grows rancid. Just the hominy part—yellow or white—is ground to make Quaker Corn Meal.

The result is superlative corn meal, yellow or white. The yellow looks like grains of gold—the white like marble dust. It makes bread and muffins, porridge, puddings and pancakes vastly better than any crude corn meal.

Get the Yellow or White in round packages with tops. See how good corn meal can be.

## Save Your Worn Tires

You Can Get 5,000 to 10,000 More Miles out of them by using Gates Half-Sole Tires. We will put them on for you and change your old tires into new ones at about one-half the price you would have to pay for new tires.

Your tire comes into our plant, worn and scarred from service, and we deliver it back to you—the same tire—made oversize and with a brand-new non-skid tread of fresh rubber. Not a square inch of your old tire will be in sight, and you will not be able to tell it from a new tire.

**GATES HALF-SOLE TIRES**

Are absolutely guaranteed for 3,500 miles of wear without a puncture—and many users are averaging from 5,000 to 10,000 miles. You cannot get this kind of guaranteed service from any tire on the market without paying two or three times the cost of a Gates Half-Sole Tire.

LET US SHOW YOU! Don't throw away another worn tire until you have investigated the Gates Half-Sole. If you are paying the tire bills you will be interested and we are ready to show you how to keep in your own pocket a big part of the cost of new tires and get better tire service than you have ever had before. We guarantee it.

The imported Norwegian cod liver oil always used in Scott's Emulsion is now refined in our own American laboratories which guarantees it free from impurities. Scott & Bowne, Bloomfield, N. J.

## Swift & Company Publicity

At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company, which showed that the Company had been considering for some time an educational advertising campaign.

The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the fair-mindedness of the American people.

The feeling against the American packer is based largely on the belief that the income and well-being of the producer and consumer are adversely affected by the packers' operations, resulting in unreasonably large profits.

Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.

For the fiscal year 1917 the total sales and net profit of Swift & Company were as follows:

Sales  
**\$875,000,000.**

Profits  
**\$34,650,000.**

This is equivalent to a \$3,465. profit on a business of \$87,500.

If Swift & Company had made no profit at all, the cattle raiser would have received only one-eighth of a cent per pound more for his cattle, or the consumer would have saved only one-quarter of a cent per pound on dressed beef.

Swift & Company, U. S. A.

W. L. Cordier sold the mules advertised in this paper to J. H. Eads for \$250. They are four-year-olds. He also sold to D. S. Robinson a jack for \$300 and bought of him a six-year-old harness mare for \$200.

W. L. Cordier sold 4,000 pounds of tobacco on the Danville market Thursday at about 49c. Mr. Ross, of the Highland section, got a similar price for his tobacco.

The New York Assembly defeated a proposal to ratify the Federal prohibition amendment by adopting a substitute providing for a referendum on the question. The vote was 84 to 64.

### Why Take Calomel?

Dr. Thacher's Liver & Blood Syrup will do all that calomel will do and without the "after effects."

Years ago, when people were bilious, when the liver got lazy and failed to do its work or the stomach was out of condition, calomel was the standby. By and by the users of calomel found that the "after effects" of taking the drug were as bad and more often worse than the ailment for which it was taken.

Dr. Thacher, in seeking a medicine to take the place of calomel—one that would do all the good that calomel would do, and yet leave none of its evil effects perfected Dr. Thacher's Liver & Blood Syrup. This was in 1854, and each year since has added to the confidence of those who have used it.

Miss Susie Brewer, of Chattanooga, Tenn., tried calomel. She was suffering with a very serious cold and gripe and had no appetite whatever. After the calomel failed she tried Dr. Thacher's Liver & Blood Syrup. She felt better after taking three doses and she soon got entirely well. "I think Dr. Thacher's Liver & Blood Syrup is a wonderful medicine," she said, "and I am very thankful I tried it."

For nearly three quarters of a century this sterling preparation has been an "old stand-by" in thousands of homes in treating rheumatism, dyspepsia, indigestion and other stomach and liver complaints. It is a powerful tonic and blood purifier and can be used with the utmost confidence.

Write Thacher Medicine Co., Chattanooga, Tenn. for a copy of "Thacher's Family Doctor," a book giving cause, symptoms and treatment of 47 common diseases.
